Cayman Islands

The Cayman Islands is one of the most prestigious offshore jurisdictions in the world, chosen by global corporations, investment funds, and entrepreneurs for its stability, flexibility, and tax-neutral environment.

A Cayman Islands Exempted Company, established under the Cayman Islands Companies Act, benefits from zero corporate income tax, no capital gains tax, and no withholding tax. This makes Cayman company registration a premier choice for structuring international businesses, asset protection, and investment funds.

Incorporation is straightforward and efficient, with company registration typically completed in 2–3 business days. A Cayman offshore company does not require local directors or shareholders, allows 100% foreign ownership, and places no restrictions on currency movement.
